

# Finding Programs On Satellite TV

Make sure your remote is in SAT mode by pressing the **SAT Mode** button

**Three easy ways to find the program you want to watch**

**1. Use the UP/DOWN ARROW buttons to change the channel up or down one channel at a time**

**OR**

**2. Use the Number buttons to enter a channel number**

**OR**

**3. Use the GUIDE button to display the Program Guide**

The Program Guide shows you current and future program listings.

**Then...**

**Use the ARROW or PAGE UP/DOWN buttons to highlight a program and then press the SELECT button**

**Tip:** HD programs can be found between 9420-9499 in the program guide.

**Note:** If you select a program that is not currently broadcasting, you will have the option to set up a timer.

Pressing the **GUIDE** button repeatedly cycles through your Favorites Lists (see User's Guide).

**Tip:** To skip ahead a specific amount of hours in the guide, enter the number of hours with the number buttons, then immediately press the **RIGHT ARROW** button. For example, pressing the 3 button then the **RIGHT ARROW** will move ahead 3 hours in the guide.

**Tip:** While viewing a program, press the **BROWSE** (RIGHT ARROW) button. Then press either the **UP** or **DOWN** ARROW. The information on other channels appear in the Browse Banner. Press **SELECT** to watch the program.

**Tip:** Press the **THEMES** (LEFT ARROW) button to bring up the Theme Categories menu which allows you to search for a program based on its content.

# Quick Tip Q & A

	What should I do if I have a snowy picture (or a blue or black screen)?	Check to make sure your HDTV is tuned to the correct input. You may need to cycle through your available inputs using the SD/HD INPUT button. Confirm your resolution setting matches what is written in the <i>Watching Satellite/HD Programming</i> section of this guide.
	What is the PIP button for?	This feature does not apply to your receiver, but can be used with some TVs with this feature.
	What should I do if my remote control doesn't seem to work?	<ul style="list-style-type: none"> <li>Try pressing the SAT Mode button.</li> <li>Make sure the remote UHF antenna is attached to the back of the receiver.</li> <li>Your remote control batteries may need to be replaced (alkaline batteries are recommended).</li> <li>Check the remote address (see <i>User's Guide</i>).</li> </ul>
	Why does my receiver change channels and do things on its own?	You may have a neighbor that also has a UHF remote and their remote may be controlling your receiver. This is easily corrected by changing your remote control address. See your <i>User's Guide</i> for instructions.
	What would affect my satellite signal?	There may be obstructions in front of your satellite dish. Sometimes new tree or plant growth can obstruct the signal between the satellite and the dish. If you are experiencing frequent signal interruptions, leave your TV on and press the <b>SYSTEM INFO</b> button on the front of the receiver. Contact Customer Service using the phone number shown on the System Information screen.
	What are the benefits of my satellite receiver being connected to a telephone line?	Keeping your phone line connected enables you to take advantage of interactive TV services, the Customer Support Application, or Caller ID applications. It will also allow you to use your remote control to order Pay-Per-View events or movies.
	Why does my High Definition picture seem distorted?	You may need to adjust the format of the picture to match the program you are viewing. Press the <b>FORMAT</b> button on your remote to cycle through the available picture formats.
	Why don't some programs on high definition channels look like high definition?	Some programming on high definition channels was originally produced before high definition technology. Therefore, these programs will be displayed in a lower resolution.
	Why don't all of my channels show up on the Program Guide or when I browse?	You may have a Favorites List active that does not include those channels. Repeatedly press the <b>GUIDE</b> button and cycle through the Favorites Lists until you find a list that contains those channels. Also check to see if those channels are locked (see <i>User's Guide</i> ).
	Can the Program Guide display program information for my off-air local channels?	For information to be displayed, you must subscribe to the DISH Network local programming package (if available).

**Tip:** To ensure your receiver has the latest program guide information and the latest software updates, press the **POWER** button to turn your receiver off when not in use.

**Tip:** Some receiver problems can be solved by pressing and holding the **POWER** button on the front of the receiver for about 10 seconds until the green light goes out. After releasing the **POWER** button, the receiver should return to normal operation within a few minutes.
